

LapShield™ Wound Retractor

Elastic Abdominal Retractor for Minilaparotomy

- Maximize exposure, minimize incision size
- Reduce the risk of wound infections
- Offer ultimate versatility

360° Atraumatic Retraction

- Distributes force evenly for optimal field of view
- Allows for maximum exposure with a minimum incision size
- Soft materials and evenly dispersed tension promote patient post-operative comfort

360° Protection

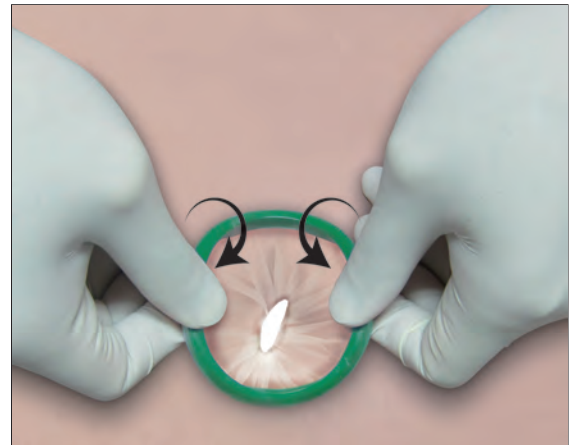

- Significantly decreases wound infection
- Allows visualization of wound margins
- Maintains moisture at the incision site
- Helps protect wound from contamination while helping to keep wound edges moist

Ultimate Versatility

- Unique design facilitates rapid and effortless set-up
- Multiple sizes accommodate a wide range of surgeries

Easily Placed and Removed

- Inserted in seconds
- Flexible ring slips gently into incision
- Removed with one finger
